About Green Source Energy LLC

Green Source Energy LLC, founded in 2007, is a privately held company that develops sustainable technologies to improve hydrocarbon extraction and use. The company is headquartered in Houston, Texas, with offices in Austin, Texas, Manhattan, Kansas, and Washington D.C. Green Source Energy offers technologies based on a proprietary family of reagents for extracting hydrocarbons from coal, oil sands, oil shale and in situ crude oil recovery. The technologies also offer solutions for the devulcanization and recycling of scrap rubber as well as additives to reduce corrosion. GSE's vision is to revolutionize hydrocarbon recovery through technologies that address the world's energy needs while drastically reducing the environmental impact of hydrocarbon recovery and use.
