### **Green Source Energy Relocates Headquarters to Austin, Texas**

**AUSTIN, TEXAS (April 30, 2010).** Green Source Energy LLC ("GSE") announced today the move of its headquarters from The Woodlands, Texas to Austin, Texas. "We are very happy about our new headquarters in Austin," said Fitz Lee, the Company's Chief Executive Officer. "Green Source Energy's technology has a broad range of uses, including applications for coal liquefaction and rubber recycling as well as for the extraction of hydrocarbons from other sources. Given the breadth of uses with significant public policy implications, relocating our headquarters to Austin will be beneficial. We will continue to maintain a presence in Houston, given our strong ties to the city and its prominence in the oil and gas industry, as well as in Kansas and Washington D.C."

### **About Green Source Energy LLC**

Green Source Energy LLC, founded in 2007, is a privately held company that develops sustainable technologies to improve hydrocarbon extraction and use. The company is headquartered in Austin, Texas, with offices in Houston, Texas, Manhattan, Kansas, and Washington D.C. Green Source Energy offers technologies based on a proprietary family of reagents for extracting hydrocarbons from coal, oil sands, oil shale and in situ crude oil recovery. The technologies also offer solutions for the devulcanization and recycling of scrap rubber as well as additives to reduce corrosion. GSE's vision is to revolutionize hydrocarbon recovery through technologies that address the world's energy needs while drastically reducing the environmental impact of hydrocarbon recovery and use.
